## Applications - 2006

Nancy Boyd reports that 2006 applications are available to Plano students in the counseling centers at each senior high school. The Hendrick Academy plans to award about 30-35 scholarships this spring to the current high school graduates. This will bring the total number of recipients to about 90 students in the scholarship program. Each student will be interviewed by the committee and the most deserving will be nominated. These students will have orientation, mentoring, and grade / class monitoring, toward their degree plans.

This unique scholarship will follow the students through their entire college coursework as long as the students met the requirements in academic success and scholarship guide lines. The Foundation plans to continue this worthwhile program as long as funds are available; therefore it is imperative that we seek funds and grants to make the dreams come true.

The philosophy of the board is to break the cycle of poverty and change the lives for these students as well as their future generations
